TOTAL VOTES:   5754
```

The percentages are wrong

```
<terminated> election [Java Application] C:\Pro  
Election results for New York:  
Trump: 1232  
Kamala: 23123  
Election results for New Jersey:  
Trump: 213123  
Kamala: 2334523  
Election results for Conneticut:  
Trump: 342424  
Kamala: 3423424  
Candidate      Votes  Percentage  
Trump:         556779    8.78%  
Kamala:        5781070   91.22%  
TOTAL VOTES:   6337849
```

Percentages are now right

```
Problems @ Javadoc Declaration Console X Git Staging
<terminated> election [Java Application] C:\Program Files\Eclipse\eclipse\plugins\org.eclipse.justj.openjdk.hotspot.jre.full.win3
Please enter amount of Votes Trump got in New York: 2313
Please enter amount of Votes Kamala got in New York: 2132
Please enter amount of Votes Trump got in New Jersey: 3123
Please enter amount of Votes Kamala got in New Jersey: 123
Please enter amount of Votes Trump got in Connecticut: 231123
Please enter amount of Votes Kamala got in Connecticut: 12312
Election results for New York:
Trump: 2313
Kamala: 2132
Election results for New Jersey:
Trump: 3123
Kamala: 123
Election results for Connecticut:
Trump: 231123
Kamala: 12312
Candidate    Votes    Percentage
Trump:       236559    94.2%
Kamala:      14567    5.8%
TOTAL VOTES: 251126
```

Didn't need to write the please enter amount of votes the user could've just entered them in the second part of the output where it sections election results by state and has the candidates names.

```
<terminated> election [Java Application] C:\Pro
Election results for New York:
Trump: 1232
Kamala: 23123
Election results for New Jersey:
Trump: 213123
Kamala: 2334523
Election results for Connecticut:
Trump: 342424
Kamala: 3423424
Candidate    Votes    Percentage
Trump:       556779    8.78%
Kamala:      5781070    91.22%
TOTAL VOTES: 6337849
```

Got rid of first part of output and put it in the second part
