ErrorLog: Digits

Youdis

```java
1  package Mastery;
2
3  import java.util.Scanner;
4
5  public class digitsV2 {
6
7⊖     public static void main(String[] args) {
8          // TODO Auto-generated method stub
9          //Getting ready to record user inputs
10         Scanner input = new Scanner(System.in);
11         //Declaration of variables
12         int entNum, baseHundred, baseTen, baseOne;
13         //prompt user to enter 3 digit number
14         System.out.print("Please enter a 3 digit number: ");
15         //Recording userinput into entNum by declaring the value into it
16         entNum = input.nextInt();
17         //Declaring values of baseHundred, baseTen, and baseOne by finding out bases of entNum
18         baseHundred = entNum / 100;
19         baseTen = (entNum - (baseHundred*100)) / 10;
20         baseOne = entNum % 10;
21         // output the bases of the number the user entered
22         System.out.println("Your base hundred is: " + baseHundred)
23         System.out.println("Your base ten is: " + baseTen)
24         System.out.println("Your base one is: " + baseOne)
25     }
26
27 }

:terminated> digitsV2 [Java Application] C:\Program Files\Eclipse\eclipse\plugins\org.eclipse.justj.openjdk.hotspot.jre.full.win32.x86_64_21.0.3.v20240426-1530\jre\bin\java

```
Exception in thread "main" java.lang.Error: Unresolved compilation problems:
    Syntax error, insert ";" to complete Statement
    Syntax error, insert ";" to complete Statement
    Syntax error, insert ";" to complete Statement

    at Mastery.digitsV2.main(digitsV2.java:22)
```

Encountered error since I forgot semi colon on the last three lines of code.

```
<terminated> digitsV2 [Java Application] C:\Pr
Please enter a 3 digit number: 123
Your base hundred is: 1
Your base ten is: 2
Your base one is: 3
```

Added semicolon and now it works.
